2 April 1956

MEMORANDUM FOR : Director of Materiel

SUBJECT : Responsibilities for Preparing Proposed SOP for Flow of Film

REFERENCE : SAPC-4771 dated 26 March 1956, "Proposed SOP for Flow of Film"

1. I concur in the proposed SOP for flow of film with the following change to para. 5.b.(2): USAF will be advised that this Headquarters will deliver their take to the Washington area.

2. Since film flow as presented herein is primarily a logistics problem, the Project Director of Materiel shall be responsible for both preparation of a detailed manual establishing procedures and for the implementation of those procedures.

3. This responsibility does not negate the responsibility of others who must be brought into this matter to assist with other aspects such as security, operations, and contractual matters.

4. I would like a detailed manual of procedures prepared by 17 April if at all possible.
